

Peer reviewed research article, “Radon Exposure and Incident Stroke Risk in the Women’s Health Initiative”, provides compelling evidence that connects radon exposure with moderate increase in stroke risk among women who are middle-aged and older.

More research is needed to strengthen this connection, but the article expands our understanding of the harmful risks of radon exposure in women.

(Buchheit, S.F., et al., 2024).

The MBRHC is offering FREE radon test kits. *The test kits are available on a first come first serve basis.*

Pick up a test kit and test your home for radon today! Residents of Bridgewater, Green Brook, Warren and Watchung can visit their municipal building to receive a test kit, while supplies last!
